

PRESS RELEASE

PRO EUROPE appoints Henri Meiresonne as new President

BRUSSELS, 2 June 2009 - PRO EUROPE (Packaging Recovery Organisation Europe), the umbrella organisation for thirty-one systems dealing with the recycling and recovery of packaging and packaging waste in Europe has announced the appointment of Henri Meiresonne as its new President.

Mr. Meiresonne is the Managing Director of the Belgian Green Dot scheme, Fost Plus. He was nominated by his peers from the other PRO EUROPE member organisations last week (28-29 May) in Reykjavík, Iceland.

Commenting on his appointment, Mr. Meiresonne declared: *"It's a great honour for me as this nomination is testimony to the trust my peers place in me. It is also a very important responsibility which I intend to take wholeheartedly"*. Fostering the exchange of best practice between countries/schemes and increasing PRO EUROPE's presence on the European scene will be among the top priorities of PRO EUROPE's new President.

Mr. Meiresonne also intends to emphasize the cost/efficiency ratio of recycling schemes, ensuring that both producers and fillers, and consumers are provided with a high value system. For Mr. Meiresonne, packaging recycling is a good example of successful implementation of the producer responsibility principle, where industry and authorities work together to achieve ambitious environmental targets. He insists that *"the 'Green Dot' scheme has contributed and will continue to contribute to the realisation of the principle of producer responsibility"*.

PRO EUROPE members are delighted to welcome Henri Meiresonne in his new function and wish him every success in achieving the organisation's goals. Moreover, they also welcome Stefan Schreiter from DSD (Germany) and Eric Brac from Eco-Emballages (France) as new members of PRO EUROPE's Shareholders Committee.

Ends.
